

Getting Started

The first step towards post secondary education is knowing where you want to go in life and planning the steps necessary to reach your destination.

MAKE THE MOST OF THE NEXT 4 YEARS

Start thinking about college

Planning now increases your chances for success later

4 considerations when choosing a major/career field

- What do I love to do? **Interest**
- What am I good at? **Abilities**
- What is important to me? **Values**
- How can I turn that into a future Job?

The Successful Model

Communication: Verbal, Written and Computer

Organization - Create a system that works for you

Leadership - Lead by example

Listening - Learn from others

Effort - Always put forth your best effort

Goal Oriented - Know what you want and pursue it

Embrace Challenges - Don't be fearful

3 WAYS TO BUILD THESE SKILLS

- **Academics**
- **Extra-Curricular Activity**
 - **Work Experience**

Steps to success

#1 TAKE AN 8-5 MENTALITY

- Think of School as Your Job
- Remember that Hard Work = Payday (Scholarships for school)
- Set high goals and work hard to achieve these goals
- Reap the reward

#2 VOLUNTEER WORK

- Take a no risk look at a field you may enter
- Look for opportunities to learn more about the career you want to pursue

ACTION PLAN:

1. Meet with your guidance counselor to discuss your college plans.
2. Get involved with extracurricular activities
3. Begin thinking about career plans and what colleges you wish to attend
4. Review the requirements for the Florida Bright Future Scholarship and entrance scores for colleges
5. Start building your G.P.A. Realize that in the end, you will be responsible for the grades you earned and someone besides your parents will be looking at your final grades
6. Start earning community service hours (25 per year)
7. Set your goals and begin working towards them

Never settle for average when you can achieve excellence
